The New Melons "SUGAR LUMPS"

NOW IN SEPARATE COLORS

The sweetest melons you ever ate. Earliest—ripe by June 30. "Ice-Box" or individual size—8 to 10 lbs., round, thin rind. You just can't beat them anyway you look at this.

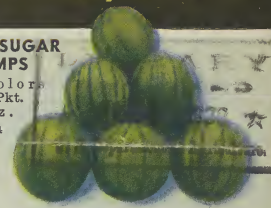

Here they are in separate colors for the first time. It was hard to do, but worth it. Try them all—you'll like the white and yellow best, I'll bet.

RED SUGAR LUMPS
Red still is favorite though yellows and white taste even better. Pkt. 20c; oz. 50c, postpaid.

WHITE SUGAR LUMPS
Pearly white color. A delicious treat. Almost no rind. Pkt. 20c; oz. 50c, postpaid.

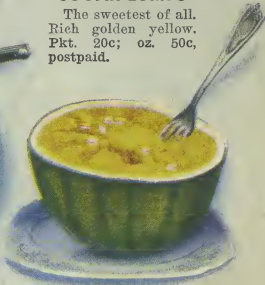

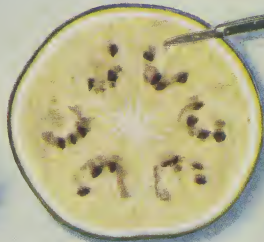

MIXED SUGAR LUMPS

All colors mixed. Pkt. 15c; oz. 26c; ¼ lb. 75c, postpaid.

YELLOW SUGAR LUMPS

The sweetest of all. Rich golden yellow. Pkt. 20c; oz. 50c, postpaid.

(1 Pkt. all 3 above, 39c, Postpaid)

TEAR OFF ALON

Largest Moonflowers I Ever Saw "ORIENTAL GIANT MOONFLOWERS"

Absolutely huge—6 to 8 inches in diameter and blooms a foot from midsummer to frost.

Comes in all colors and combinations of colors—reds, purples, browns, whites, pinks. In all shapes—ruffled and frilled plain, variegated, striped and mottled. No two alike.

Very hardy, plant lots of them.

Pkt. All Colors Mixed 15c; 2 for 25c, postpaid.

GOLDEN NUGGET CARROT

Golf-ball size—sweet as honey—tender and crisp—bright orange. Very early. A seedman friend in Denmark sent this to me. Every carrot eater will want seed of it.

Price: Trial pkt. 15c; oz. 25c; ¼ lb. 75c, postpaid.

The New Early BIG WRINKLED ALASKA

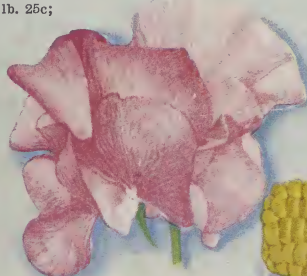

Here's the new pea of this decade. Early like Alaska but bigger, MORE TENDER, and wrinkled. That's all I need to say but that's a plenty, isn't it? Please order early. (Canners are using a lot of it.)

Price: Pkt. (3 oz.) 15c; ½ lb. 25c; 1 lb. 40c, postpaid.

The New GOLDEN DELICIOUS PEPPER

Finally a REALLY SWEET AND MILD PEPPER. You can eat it just like an apple. A sure-bearer. Very prolific. The "Tops" in peppers.

Price: Pkt. 15c; ½ oz. 45c, postpaid.

MISS 'SHIRLEY TEMPLE' SWEET PEA

Dainty and bright like Shirley herself. Claimed to be the finest Sweet Pea ever introduced. Flowers large—3 or 4 on long straight stems—daintily frilled, light pink.

Price: Pkt. 15c; 2 pkts. 25c, postpaid.

The New 'FILL BASKET' POLE BEAN

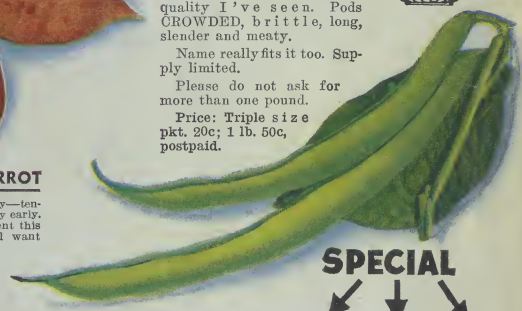

This is the one you hear me talking about over the radio. Got it through a neighbor—Alf Eudy—in Missouri.

Yields like sin and best quality I've seen. Pods CROWDED, brittle, long, slender and meaty.

Name really fits it too. Supply limited.

Please do not ask for more than one pound.

Price: Triple size pkt. 20c; 1 lb. 50c, postpaid.

SPECIAL

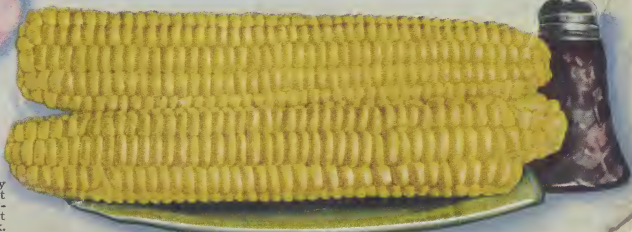

YOU CAN PICK SWEET CORN EACH WEEK ALL SEASON WITH THIS MIXTURE OF MINE

Most folks have Sweet Corn one week and it's all over. They feel it's too much trouble to make four or five plantings to have corn all season.

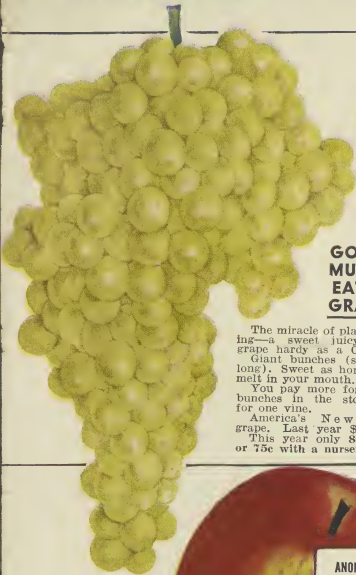

Well, here's the answer to that. I've made a special blend of my finest MULE HYBRID Sweet Corns and other Hybrids to RISEN SOME EACH WEEK ALL SEASON LONG.

I used Hybrid Sweet Corn as it's the coming thing. It yields way more, is more tender, deeper kernelled, more delicious. I want you all to plant hybrids.

It's a mixture you can't beat. Corn all season, hybrid corn at that and at a BARGAIN PRICE. Triple size pkt. (3 oz.) 12c; ½ lb. 19c; 1 lb. 34c; 3 lbs. 89c, all postpaid.

SPECIAL CATALOG EDITION—Shenandoah, Iowa, Jan. 1, 1939

No. 1

MY OWN CORNER For "Just Visitin'"

24 GRANDCHILDREN—BEST I COULD DO!

It's mighty hard these days to get all 24 grandchildren and all my own boys and girls together so you'll have to get along with this.

I took this down in the Ozarks last summer when Josephine, Phillip and his wife, and Mary and Pete surprised me with a visit.

Besides Mrs. Field and myself they are left to right: Josephine's girl, Mary Jo; Henrietta; Mary's boy, Edwin; Josephine's boy, Charles; Mary's children, Pat holding Mary Jane; then Ruth's youngest "Big Boy" and Susan.

A LETTER FROM HENRIETTA

"I don't really have tea in my dishes, but I can play like it's tea, and that's just as much fun as real tea anyway, isn't it? And don't you like my tea dishes? Grandma gave them to me and I think they're the prettiest dishes I ever saw. One's cracked a little, but I'm real careful with it so I won't break it permanent."

"I went clear to Shenandoah last summer with Grandpa and Grandma and saw Grandpa's big seedhouse and had a lot of fun and saw lots of nice people. Everybody was nice to me. The seedhouse is awfully big. Some day I can help Grandpa there, he said."

"Goodbye now."

Henrietta.

As usual, I'm writing the first page of the catalog last of all and the printer is fussing at me to hurry to get it done. I always save this page until the catalog is all done, so I can sit back, with my feet up, and visit with you, or gossip or chin or anything else you want to call it. It's my own nose, written to suit myself and if the grammar isn't just what it should be, I know you aren't going to be too hard on me.

I've told you before, I think I've got the finest bunch of customers in the world. Well, this year I think the same, only more so. I honestly believe everyone of you went out of your way to tell your friends about Henry Field and that kind of missionary work is worth a lot more than dollars and cents. There's thousands of these folks all over the country that I feel well acquainted with, although I've never seen them. You introduced me to them and they sent me letters and orders and I got to know them real well and feel like they've always been my friends and now they're Henry Field's customers, too, and everybody's happy.

If every business had customers like mine, there wouldn't be so much trouble in the world.

And I want to keep on hearing from you. All of you. Write me a letter and send it along with your order. If you can't send the order, send the letter anyway. This world isn't all made up of Dollars and Cents. We just as well get a little enjoyment out of it as we go along.

And that reminds me.

If any of you customers of mine haven't gotten your Seed Sense, I want you to write and tell me so. I'll see that you get them. The subscription price is still just a garden seed, field seed, or nursery order sometime during the year. If you've sent me that, you're entitled to the three or four issues, we put out each year and I want you to have them.

And how do you like the catalog this year? I've worked at it hard and tried to pack each page full of good advice and honest descriptions and honest pictures, different from other catalogs. That's why folks call my catalog the "different catalog" because you can believe what you see written in it. I never did believe in varnishing the truth all up in a lot of pretty colors and fancy words anyway. If my seeds and nursery stocks are not good, you folks are going to find it out anyway. It never did pay to lie, and it never will. You get what you pay for. Henry Field's, or you get your money back, and I've lived up to that for 50 years, which means I've treated my customers right, doesn't it? If I didn't I wouldn't be in business long.

But there I go off sounding like I was bragging. But I really wasn't. It makes me mad to see things that aren't true and I guess when I get on that subject I talk too much.

Anyway, it looks like my space is about up. I can write you another letter in Seed Sense, but meanwhile I want to get letters from you all. Even if you haven't anything to say. Just a visit. And I want your orders, too. I can't run this business without them and that's what we're here for—to give you good seeds and good nursery stock.

Go ahead now and enjoy the catalog. Come and see us soon.

Goodbye,

Henry Field.

P.S. The order sheet is stuck in loose so it will be easier to use. Pick out what you want, write it down and send what fast service I can give you.—H. F.

WANTED: 20,000 BOYS and GIRLS in the Seed Business with Me

A CHANCE TO WIN PREMIUMS OR CASH

You boys and girls these days are looking for a chance to make money and win big prizes. I'm going to help you by getting you in the Seed business with me. I will furnish the seeds for your start and give you a big share of the profits. I have had as high as 30,000 JUNIOR SEEDSMEN on my list and want 20,000 more now.

You know I started in business for myself selling seeds when I was probably younger than you are now. You have read about it in the catalog. But I didn't get very far at that time. For I had very few seeds to sell and no money to buy more with, and no one to start me in business. I wish I could have had the chance you now have. I would have got a good start in the seed business about ten years earlier than I did.

EVERYONE WANTS A BARGAIN COLLECTION LIKE THIS

This year we're offering the best and most popular collection we have ever put out. It's just what everyone wants. A **WHOLE GARDEN FOR 39c.** 10 giant packets of garden seed in each collection for only 39c. Think of it! Everyone will gladly buy a bargain like this.

Now what I want you to do is sell these seed collections to your friends and neighbors. All you need to do is fill out the application blank below and return it to me and I will send you ten of these collections; then after you have remitted for them I will gladly send you some more if you can use them. A great many of the Junior Seedsmen sold as high as ten or twelve sets and there is no reason on earth why you shouldn't do equally as well if you get an early start. I know you are honest, and I am willing to trust you, and then when you have sold the collections we will divide the profits. How does that suit you? Henry Field.

HERE'S MY PROPOSITION

1. Fill out the coupon below and send it to me and I will send you at once by parcel post 10 of the 39c collections for you to sell. You need not send the money till they are all sold, but if you do not sell them within a month, you are to return them.

2. When you have sold ten collections you get one-fourth (\$1.00) the total for your share, either in cash or one of the premiums. By buying these premiums in big quantities and setting the manufacturers interested in my plan for starting boys and girls in business, I have made you one-fourth cover the wholesale cost of each one.

3. You send me the \$3.90 you receive for the 10 collections and tell me which premium you want, and I will send it to you at once by parcel post, except in the case of some expensive premium requiring a little more work.

4. If you would rather have your share in cash keep out one-fourth and send the rest to me. I trust you to do the dividing.

5. In case you cannot sell the 10, sell all you can, return the rest by mail, keep one-fourth of the money and remit the rest.

6. The collections must all be sold at the same price, 39c. We believe in one price to everyone. It's the only way.

DON'T WAIT

Don't put off until some other Junior Seedman has supplied your neighborhood. Get an early start and you'll sell more, easier. H. F.

My First Start in the Seed Business, Selling Seeds to Neighbors

OTHER PREMIUMS

The premiums we are offering this season are better than ever. I'll send a big premium catalog with your seed collections. You'll have a real time picking out what you'll want.

Some of the other premiums besides those pictured below include: Football; Basketball; Boys' Wrist Watch; Girls' Wrist Watch; Binoculars; Brush, Comb, Mirror Set; Camera and others.

These premiums are bought in enormous quantities so we're able to buy at wholesale items worth 2 to 4 times your cash share of the profits.

Henry Field's JUNIOR SEEDSMEN COLLECTION 10 Giant Pkts. 39c

Think of it. 10 Giant packages for 39c. Enough seed for an entire garden. It's a collection, the likes of which you've never even heard.

The reason we offer this big collection for such a price is simply to get new customers acquainted with our seeds. The price is so low everyone will buy.

We are going to make the quality so good it will be a living and growing advertisement for us—new crop, tested and vigorous—the kind you always get from us.

Enough seed for an entire garden: CABBAGES, RADISHES, LETTUCE, TOMATOES, BEETS, MUSKMELONS, ONIONS, CUCUMBERS. And for flowers: GIANT ZINNIAS and ASTERS.

Think of it. All 10 pkts. for only 39c. Priced so low, we cannot change the listed assortment as it is put up in large quantities. You can order other items direct from our catalog.

My Cabbages in Eskimoland

My seeds go far and wide. Here's one of the cabbages grown by Eskimos in Alaska from my seed. It looks to me like these Eskimos know how to garden, or the climate is better, or my seeds can take it. It's one of the three. I used to think Alaska was covered with snow all year, but they grow good gardens there.

How do you like the young Eskimo beauty?

Inoculate for Bigger Yields

GIANT PKT. 3"x4"
Inoculates 6 lbs.
seed. Pkt. 10c

All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

There's enough in this packet to inoculate 6 lbs. of seed. That's enough for most of you. Be sure and everybody order it. Garden Nitragin 10c pkt. postpaid.

Anoka Bore 1st Year

This Anoka bore the first year planted. Not a big crop, but two apples and that shows it was willing. Grew from 24" to 6 ft. first year.

That's the son of Mr. and Mrs. M. J. Strukhoff, Thomsen, Illinois, pointing to the apples. They're fine customers of mine—bought a lot of nursery stock and of course all their garden seeds.

Other Things We Do

Everybody knows Field's is the place to buy seed and nursery stock and chicks, but some of you don't know about my other departments. That's why I've put this short list here as I think we ought to get acquainted.

Besides the seed and nursery business we have a complete stock of men's and women's clothing; big hardware department; one of Iowa's largest pet and pet supply departments; jewelry store; poultry department for buying poultry; fur and wool buying department; harness repair shop; tire repair store. About anything you want you can get at Field's. Write for catalog or better yet, come see us.

50c Apiece for Pictures

You folks know, I can't put out a Seed Sense without plenty of letters and pictures. And, I'm willing to pay for them. Here's what I'm going to do.

Send me those pictures—of your tulips, alfalfa, Atlas, flower bed, lawn, kids, stock—anything you want. If I can use them, I'll pay 50c each when I do. The only rule is, that they must be extra prints that you don't want back for I never know which I can use until each Seed Sense time. The best one of all, sent in, will get \$5. Fair Deal!

Send Me Neighbor's Names

I'm going to ask one more favor of you and then keep still. The best advertising I have is the missionary work you folks do for me.

So, if you know someone who would like my catalog, send me their name. I'll appreciate it.

Ever Hear of Climbing Watermelons?

Not many people have heard of climbing watermelons. They're brand new. Here's Billy Sittell, son of one of the seedhouse boys, out looking them over. The picture tells the story. They'll climb on trellis or fence or will grow on the ground. Start bearing early and continue all season. Melons small, about 4 to 6 lbs., very sweet. Seeds small. Have a small amount of seed for you to try them. Ask for 703—Pkt. 10c; oz. 25c; ¼ lb. 70c, postpaid.

CABBAGE

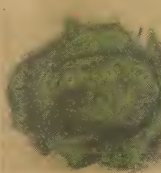

ABOUT CABBAGE

Cabbage is one of my favorite vegetables and I have always had a lot of it in the trial grounds. Used to raise a lot of it for market. I have spent a good deal of time in checking over the different varieties and kinds of seed. Guess I've tried all of four hundred kinds. These are the pick of them all. Start in house or hot bed six weeks or more before you expect to plant out of doors. Likes rich deep soil. An ounce should make 2500 plants.

CUCUMBERS

ABOUT CUCUMBERS

They like rich soil but they do fairly well most anywhere. Plant liberally because the bugs sometimes take some of the seedlings. Don't crowd cucumbers—give them plenty of room. Make the hills at least 4 x 6 feet and more room if you have it. Plant when the ground is warm and digure about 3 dozen at a time. For pickles, plant in June.

Cucumber bugs are easily stopped with BUG DUST which is non-poisonous.

Honey Rock

Hale's Best

THE BEST MUSKMELONS ON SEED

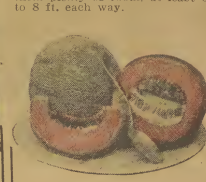

ABOUT MUSKMELONS

I'm proud of my muskmelon seed. I don't believe there is another seedman in the country who has spent as much time fussing with the growers, inspecting crops and worrying about his melon seeds. Every variety is grown by a specialist in an isolated place where it doesn't get a chance to mix with anything else. Plant them after the ground is warm. Expect about three dozen hills for one packet of seed or 100 hills from an ounce. Give them plenty of room, at least 6 to 8 ft. each way.

MILDEW RESISTANT HALE'S BEST 10c

328 A carefully selected strain of Hale's Best that won't take mildew. The western growers who grow for carlot markets have gone in for it in a big way. Better than the regular Hale's and more widely adapted. The melons are slightly oblong or oval shaped, the seed cavity is very small, the flesh is very thick and is deep orange. If you have been bothered with mildew, plant this one. Price: Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.25, postpaid.

HEARTS OF GOLD 5c

About Peppers

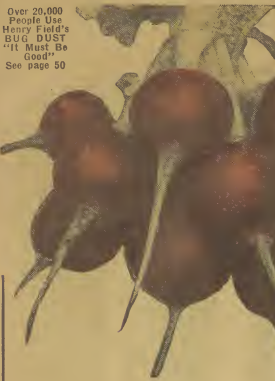

Peppers do well on any soil except that which is too low and too wet. Give them plenty of room for best results. I like to start them in the house or in the hot bed and from then on handle them just as you would tomatoes. One ounce will make 150 plants.

KIDS! HERE'S REAL POPCORN

The New SUPER GOLD

198 I've grown popcorn since I was a boy. It's still one of my favorites. Every time I hear of some new, I get it. Super Gold was originated by the Kansas College. It has everything—volume—most thirty to one. Practically hullless. Color—a rich creamy yellow; yield—better than the best of them. Vigorous and drought resistant. Price: Pkt. 10c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; 3 lbs. 75c, postpaid.

NEW HYBRID JAP HULLLESS

193 Absolutely the last word in popcorn. Originated by Minnesota Experiment Station and has a 16% greater yield than a popping volume more than 29% over the ordinary kinds of Jap Hullless. That means a lot more eating and you just can't beat Jap Hullless for flavor and tenderness. Supply limited. Price: Pkt. 10c; $\frac{1}{2}$ lb. 25c; 1 lb. 45c; 3 lbs. \$1.25, postpaid.

The GIANT POPCORN

197 SOUTH AMERICAN (ARGENTINE GIANT).

OTHER VARIETIES

TOMATOES

ABOUT TOMATOES

I've tried out a lot of different varieties of tomatoes and I've discarded all but the best of them. These varieties are the pick of the lot, over a period of the last 46 or 50 years. My seed stocks are extra select, pure, uniform, and they have to be right. Plant both early and main crop seeds, so you will have plenty.

NEW STONE

415 A great main crop variety for canning and general use. Solid, smooth, ripens evenly, bright scarlet, a good yielder. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.

OXHEART

409 Entirely different from any other kind of tomato. Large, heart-shaped, pink-skinned variety. The flesh is thick but very tender. It has few seeds. Some what late and a great deal after the style of Ponderosa. Has a distinct, appealing, mild flavor. Price: Pkt. 10c; 1/2 oz. 35c; oz. 60c; 1/4 lb. \$2.00, postpaid.

SNOWBALL TOMATO

403 Snowball is an ivory white tomato with flesh almost white. Most as big as Ponderosa in fact it belongs to the Ponderosa family. Has few seeds and is perfect in shape and taste of taste who are unable to eat tomatoes before canning, then now that we have this fine new Snowball, every garden should have a few of them. Price: Pkt. 10c; 1/2 oz. 30c; oz. \$1.00, postpaid.

SCARLET SLICER

410 Here's the new one for you! It's deep red-fleshed, its heavy foliage helps it to withstand drought and hot winds. It's the ideal slicer (very round and a smooth) and is good for canning, too. Special price: Pkt. 15c; 1/2 oz. 35c; oz. 40c, postpaid.

FIELD'S RED BIRD

421 Not to Red Head, I claim this is the finest early tomato I ever found. It is another one of my own introductions. Grows to a medium size, round, very smooth and seldom cracks. The color is a beautiful bright red. It is delicious in every way. Price: Pkt. 10c; 1/2 oz. 28c; oz. 35c; 1/4 lb. \$1.00, postpaid.

YOU CAN GROW YOUR OWN

PEANUTS

HOW TO GROW PEANUTS

Yes, you can grow peanuts in this climate just as well as not. They don't yield quite as heavy as they do in the South, but they do yield enough to give you plenty to feast on all winter.

Plant just like beans, in soft loose soil, after it gets thoroughly warm in the spring. Thin to a foot apart in the row and keep well hoed.

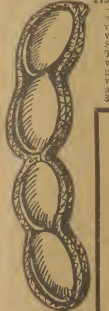

PEANUT & POPCORN SEED OFFER

ALL for 25c, Postpaid

NEW! DOUBLE JOINTED PEANUTS

215 Most kinds of peanuts grow by two - that is there are two of them in a nut-shell. Well, I have found something a variety which grows down in Tennessee with three or four nuts in the shell. So we have called them Double Jointed. They are prolific growers, do just fine. We had a lot of them here in the trial grounds this year and I wish everybody would plant them, especially the boys and girls. Price: 1/4 lb. 10c; 1 lb. 30c; 3 lbs. 75c, postpaid.

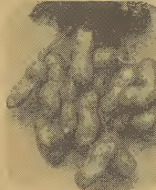

EARLY NORTHERN PEANUTS

219 Small, well filled pods with lots of them on the vine. Will ripen anywhere in the corn belt. Price: 1/4 lb. 10c; 1 lb. 30c; 3 lbs. 75c, postpaid.

JUMBO PEANUTS

218 Great big kind. Plant them the same time you plant beans. Not as early as the Early Northern but you are reasonably sure of a crop here in this section. Price: 1/4 lb. 10c; 1 lb. 30c; 3 lbs. 75c, postpaid.

FIELD'S FAMOUS EARLY RED HEAD

401 I introduced Red Head a good many years ago. Since then we have been constantly working on it to make it better. I will put it up against any other early variety. It is a heavy yielding sort, bears over a long time. The tomatoes are round and smooth, they ripen evenly, and very seldom crack. The firm flesh makes it a fine canning sort. Price: Pkt. 10c; 1/2 oz. 20c; oz. 35c; 1/4 lb. \$1.00, postpaid.

PEAR TOMATO

The old fashioned pear shaped preserving tomato. Fruit is borne in clusters. No. 419 YELLOW PEAR.

No. 406 RED PEAR. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.

MARGLOBE

405 Another dependable wilt-resistant main crop. Vigorous grower, medium large, nearly globe shaped, smooth and solid. The quality is extra fine, and it is an outstanding tomato for canning. Deep scarlet. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.

SCARLET CLUSTER

413 We introduced this one last year. It's everything that a gardener might hope for. Good size, smooth, brilliant scarlet color throughout with thick flesh and small seed cavity. Ripens from the inside out and doesn't crack. Price: Pkt. 10c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.25, postpaid.

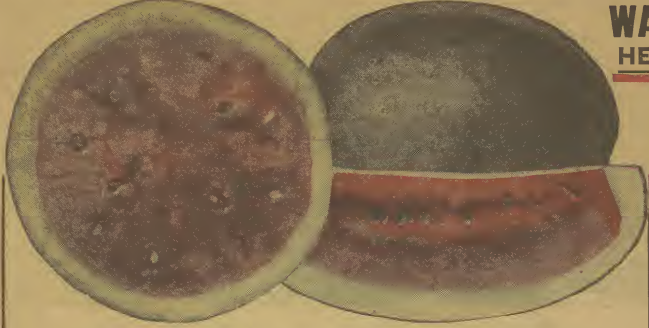

OTHER EARLY VARIETIES

- 402 **FIELD'S EARLY JUNE.** Another good extra early one. Not as large as some and doesn't yield as much as some, but makes it up on earliness. Medium size, rounding, flat, dark red, fine for slicing. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.
- 411 **SARLIANA.** One of the best of the early red tomatoes. Vigorous, spreading vine, bearing bright scarlet, medium size, nearly globe shape fruit, in clusters. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.
- 408 **BONNY BEST.** Apple shaped, second early. Fine for forcing, great for canning. Medium size. Vigorous grower. Bright scarlet. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 75c, postpaid.
- 404 **BREAK O'DAY.** Extra early. Resistant to wilt, the fruit is globe shaped, smooth, large, flesh firm and of fine quality, a bright scarlet color. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.
- 422 **EARLY BALTIMORE.** I got this one from the University of Illinois in 1935. It's a second early, wilt and disease resistant, somewhat smaller than the old-fashioned Baltimore, fruits are smooth, ripen early, bright brilliant red with a small core. Good for market gardening or canning. It is particularly adapted to our mid-western hot, dry weather. Price: Pkt. 10c; 1/2 oz. 20c; oz. 35c; 1/4 lb. \$1.00, postpaid.

OTHER MAIN CROPPERS

- 423 **PRITCHARD.** A new wilt-resistant variety. I tried it out both here in the trial grounds and in my garden in Missouri, and taking it all the way around, it is the finest main crop tomato I know of. The fruits are very solid and heavy, smooth, globe-shaped, a rich deep scarlet color, mild flavor, and fine for tomatoes. It has distinct topping habit, and can be planted closer together than most sorts. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.
- 417 **RUTGERS.** I found this one in New Jersey. After trying it out here for a couple of years, I am ripe to believe that it deserves a place in every garden. It starts ripening on the inside, and you can depend on it being thoroughly ripe all the way through. Doesn't have a hard core, and is outstanding for its uniform deep red coloring. Flesh is firm, globe shaped. An excellent canning variety. Price: Pkt. 5c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.25, postpaid.
- 418 **PONDEROSA.** Here's one you just can't beat. It is too tender and doesn't hold up well for market, but for home use there's nothing like it. The fruit is large, sometimes inclined to roughness, but very tender and meaty. Slices beautifully with few seeds. Vigorous grower. Price: Pkt. 5c; 1/2 oz. 20c; oz. 35c; 1/4 lb. \$1.00, postpaid.
- 412 **GOLDEN BEAUTY.** Large, main crop yellow variety. Quite a novelty, but well worth having. I like it. It's smooth, medium size, mid-season to late, fine for preserves or for table use. Price: Pkt. 5c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.
- 424 **ITALIAN TOMATO.** I want you all to try it. Fruits are pear shaped, weigh 2 to 3 ounces, about 3 inches long, about 1 1/2 inches wide, color is red. Flavor is very mild, less acid than most varieties, skin is tough, doesn't crack and is easily handled, remains firm for a long time. Color is a deep red, extremely prolific bearer and bears from early summer to freezing. Makes the finest preserves you ever tasted. Price: Pkt. 10c; 1/2 oz. 20c; oz. 35c; 1/4 lb. \$1.00, postpaid.
- 414 **DWARF CHAMPION TOMATO.** A vigorous stocky grower, sometimes known as the tree tomato. It is medium to late in the season and the fruits are pink and grow in clusters. They are rather flat globe shaped. A good bearer, does unusually well from here on west. Price: Pkt. 10c; 1/2 oz. 15c; oz. 25c; 1/4 lb. 80c, postpaid.

WATERMELON HEADQUARTERS

ABOUT MELONS

I want every farm to have a big watermelon patch. Even the backyard gardener should raise a few hills of them. Nothing will make the boys happier than a good melon patch of their own. My melon seed comes from fields grown especially for seed crops.

Melons like warm loose soil. Give them plenty of room, at least 10 ft. each way. Figure about 50 hills from an ounce of seed, or 3 pounds to the acre.

VARIETIES

711 EARLY CANADA. It is fully as early as my Fourth of July, and to tell the truth about it, I think it is most as good in quality too.

STONE MOUNTAIN

714 A great big melon, almost round. Weighs 50 pounds in a good year. The rind is hard and tough, dark green, stands handling well. Very sweet in flavor, a bright sparkling color. Price: Pkt. 5c; oz. 8c; ¼ lb. 30c; 1 lb. 60c, postpaid.

KLECKLEY SWEET

704 Probably the best known melon in America. The measuring stick by which all other varieties are compared. Large, cylindrical in shape, weighs around 35 lbs., dark green, flesh bright red. Very tender and sweet. Price: Pkt. 5c; oz. 8c; ¼ lb. 20c; 1 lb. 50c, postpaid.

WILT RESISTANT STRAINS OF ABOVE

706 KLECKLEY SWEET NO. 6. Originated by the Iowa State College to take the place of Pride of Muscatine. It has all the good qualities of Kleckley, plus the resistance to wilt, and similar diseases. Doesn't grow bottle-necked, stands handling and shipping well. Flesh is bright red, tender and extremely sweet. Price: Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 70c, postpaid.

723 STONE MOUNTAIN NO. 5. A new wilt resistant strain of the Georgia Stone Mountain. It has all the good qualities of the regular strain and in addition, will grow on wilt infested soil. Price: Pkt. 5c; oz. 10c; ¼ lb. 25c; 1 lb. 75c, postpaid.

The size is medium. The outside color is a greyish green, almost white, with a fine green netting. The rind is very thin, the flesh bright red, and the seed mahogany brown. It will weigh from 10 to 15 lbs. on good soil. Price: Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.00, postpaid.

717 ICE BOX PRINCESS. Nowadays that everybody has an ice box, they are looking for a small-sized melon to fit it. It is just the right size to serve one person perfectly. Flesh is a clear red, clear to the rind. Rind is very thin. It's sweet and of the finest quality. My stock seed originally came from Hungary. Price: Pkt. 5c; oz. 15c; ¼ lb. 30c; 1 lb. 90c, postpaid.

701—STATE FAIR MELON. This is the big Jumbo kind that you saw at my Jubilee. I used to take them around to the State Fairs and challenge anyone to raise bigger ones. They mature nicely here in this section. Melons often weigh 100 pounds or more. Price: Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. 90c, postpaid.

707 CHILIAN. A 15- to 20-pound melon, medium early, round and striped. Flesh deep red, crisp and fine flavored. Just the thing for the family garden. Price: Pkt. 5c; oz. 10c; ¼ lb. 20c; 1 lb. 65c, postpaid.

705 BLACK SEEDED KLONDIKE. I recommend it highly. It carries the highest sugar content of any melon that I know of. Oblong, medium size, dark green rind, and small black seeds. The flesh is a beautiful sparkling, deep red, very crisp and tender, without a trace of strings. Price: Pkt. 5c; oz. 15c; ¼ lb. 35c; 1 lb. 60c, postpaid.

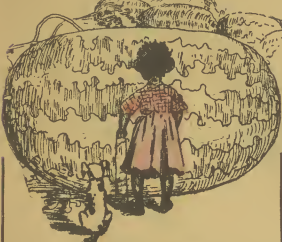

702 GOLDEN HONEY. A beautiful yellow-fleshed melon that makes a novel home or market sort. Large, oblong shape, weighing around 20 lbs. Rind dark green, with irregular stripes. Flesh a tender, crisp, delightfully flavored bright yellow. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00, postpaid.

716 KANSAS SWEET. A new, big round melon that looks like the old Kolb Gem. Has thin rind, light green with broad dark green irregular stripes. The flesh is solid red, and the seeds are buff color. Price: Pkt. 7c; oz. 15c; ¼ lb. 30c; 1 lb. 90c, postpaid.

712 MOON AND STARS. Quite a curiosity. Dark green, oblong variety with yellow spots an inch or more across which represent the moon, with many small yellow spots around it, representing the stars; hence the name. The quality is good and it's well worth planting. Price: Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. 90c, postpaid.

WATERMELONS MIXED 9c

This is a specially fine mixture for a boy though I sell thousands to folks who haven't been boys for a long time. It's a thorough mixture of 35 kinds so you have all sorts at all times. Find room for at least a quarter pound and you'll be tickled pink with the melons. No. 710—Big packet (over 1 oz.) 9c; ¼ lb. 25c, postpaid.

DIXIE QUEEN

722 A recent introduction. It is a great shipper, and a fine melon for the home garden. It produces an unbelievable number of melons. The flesh is crisp and tender, and has the fewest seeds of most varieties. The rind is thin, but tough. The color is striped light and dark green. Deliciously flavored, rich color. Price: Pkt. 8c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.00, postpaid.

FIELD'S FOURTH OF JULY
708 20,000 of my customers swear by this melon year after year. One of the earliest melons grown. Average weight, 8 to 10 lbs. Color is a deep green, marked with lighter stripes. Rind is exceptionally thin (not over 1/8 inch), flesh is dark red, tender, fine grained, unusually sweet and rich. Price: Pkt. 10c; oz. 15c; ¼ lb. 30c; 1 lb. \$1.50, postpaid.

OPATA. Bears when very young. Trees are always loaded. Watch that you don't break the limbs with too much fruit. Reddish-purple outside and yellow meat. Grows on any soil and of good quality. Ripens about July 10.

SAPA. Fruit dark purple outside and inside. Bears every year and like Opata is just covered. Extra fine to eat off the tree or for cooking. Bears right after Opata.

WANETA. (See Above.) UNDERWOOD. (American.) This is my favorite at Centerville. Bears regularly and fruit is immense. The big red freestone plums ripen in July. A beautiful plum to look at and delicious one to eat. (Not a Hansen variety.) GOLDEN EMBER. (See Above.)

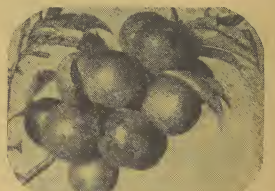

OKA—New Early Plum-Cherry

ABOUT PEACH TREES

I've watched peach trees and crops a good many years. Some varieties are pretty sure bearers and some aren't worth a rap. You can be sure I'm not offering you shy poor bearers. Listed on this page are the varieties I plant and believe in.

Plant fifteen feet apart or 190 trees to the acre. Plant peaches as fillers in your apple orchard.

All my trees are big, soon-to-bear, heavy rooted and I've priced them right. Dates given after varieties indicate approximate ripening date. This may vary according to weather conditions.

THE FAMOUS POLLY PEACH (Sure To Bear)

Super hardy, sure-to-bear variety. Big freestone—white overlaid with rich red blush. Keen flavor and juicy. Introduced by Iowa State College. Produced a big crop of peaches 12 years in succession. Fine for canning as it is very firm. Next to Hawkeye, I believe this is the hardest, surest to bear. Now same price as other varieties. Ripens August 15.

OTHER GOOD VARIETIES

CHAMPION. (Freestone white) Very hardy in the central states. Has size and quality of honey-sweet, rich, juicy white peach you'll rave about. Ripens around August 10th.

ELBERTA. (Freestone Yellow.) The most popular and no wonder. Big, rich yellow, highly colored fruit. Heavy, sure bearer, and fine flavored. The peach that everybody likes. It's the standard by which other peaches are judged. You must plant Elberta. Ripens August 30th to Sept. 15th.

GOLDEN JUBILEE. (Freestone.) Beautiful new red and yellow color and good size. Harder than most and growing more regular each year. Flesh is yellow, tender, juicy and sweet. July 20.

HEATH CLING. (Clingstone White.) Best to preserve or pickle whole. Late in ripening and keeps extra good. September 25th.

J. H. HALE. (Freestone Yellow.) Extra large size and rich yellow overlaid with red coloring. One of the best I had in Missouri. Ripens a few days ahead of Elberta and tastes as good as any peach you've seen.

MAYFLOWER. (Soft-Culmed White.) The earliest peach to ripen and really popular because it is the first fruit. Fruit medium size and a beauty with crimson colorings. Often called "Frost Proof" because it blooms late enough to miss the frost.

25 PEACH SEEDLINGS

WAS \$1.25—NOW only 89c

Yes, and it's every bit worth it or I'll admit I don't know a miracle when I see one, and it is a miracle, too—a miracle of plant breeding.

IS IT GOOD?
Nothing better. Big, golden yellow, juicy grapes, sweet as sugar, and vines are as hardy as weeds. If you want California grapes, but object to paying the fancy prices asked in stores, you can grow enough of your own in one year to pay for the vine.

CLIMBING ROSES

Priced Above

Here's the hardest Free Blooming ones. For arbors, trellis or along the fence. Set 6 ft. apart. Will grow most any place you need a vine.

PAUL'S SCARLET—If you can have only one climber, and if you like red, then this is the one you'll love. Most people do not stop with one but trail its glory the full length of the back fence by setting one at each post. The individual blooms are of the large tea-rose type, and their blazing red does not fade.

CLIMBING AMERICAN BEAUTY—The individual blooms cannot be distinguished from those of its hot-house namesake. Big rose pink fragrant beauties on long wiry stems.

DE. VAN FLEET—Large flesh pink buds of tea-rose shape open into blooms very large for a climber. Profuse bloomer with luxuriant waxy foliage.

DOROTHY PERKINS—The big clusters of double pink flowers make a cloud of color. Imagine the mass of pink on a trellis behind the pale blue of your Delphiniums or the white of your Regal Lilies.

EXCELSA—The Mildew proof Crimson Rambler. Great clusters of double bright red blossoms. Very rapid growing too.

GARDENIA—The Yellow Rambler. The open flowers are really a deep ivory but the buds are yellow. One can depend upon in every way.

MARY WALLACE—Do know this lovely fragrant climber better. It's a rose pink bloom on a long stem. Beautiful foliage.

PINK PAUL'S SCARLET (Chaplins) Large semi-double flowers of apple-blossom pink; an unusually strong grower. Will cover a trellis the first year.

PATENTED CLIMBER BLAZE—Flowers the same brilliant red as Paul's Scarlet but semi-everblooming. Blooms both fall and spring. Price \$1.00, postpaid.

Grootendorst

Red Everbloomers

AMI QUINARD—Rich Velvety, almost black-red. Great big bud and full flowers. Holds its dark red color. Fragrant.

ETOILE DE HOLLAND—One of the finest crimson red roses. Free blooming, with beautiful velvety buds on long stems. Best in my trial garden this year.

E. G. HILL—Outstanding. Big, full deep crimson. As the flower opens, it grows darker red. Always attracts attention. Very fragrant.

GRUSS AN TEPLITZ—The hardiest and most free blooming of all roses. Good glossy foliage. Blooms entirely cover the plant from one side to the other. Flowers not extra large but there are so many of them every day that this rose will live up your rose bed more than any other. Fine where other roses have trouble growing at schools, cemeteries and filling stations.

MARGARET MCGREDDY—A vivid scarlet with a touch of orange. Buds perfect for cutting with extra long stems.

OLYMPIAD—On extra tall stems, the great scarlet-crimson buds open to flowers of blood red with copper shading at base.

RED RADIANCE—Guess you know Radiance roses are the best. Hardy, free blooming, full flowers that should be in every garden. The color is so distinctive that Radiance Red is often used to describe the color of other flowers. (See picture on back cover.)

Pink Everbloomers

BETTY UPRICHARD—Extra hardy. Upper side of petals light pink. Reverse dark pink with orange tint. Buds perfect and blooms no matter how hot.

BRIARCLIFF—Big pink flowers edged with cerise. A green-house favorite because it lasts so long. Stems long and stiff so you'll want this rose for cut flowers.

EDITOR MCFARLAND—A new addition to my list. So good I want you to try this perfect big pink rose. Buds long and pointed—flowers full pure pink, and thick all summer. (Same price as other roses.)

MRS. CHAS. BELL—(See Salmon Pink Radiance.)

SOUVENIR M. C. CHAMBERD—New in the rose world with a new color. Long pointed coral buds unfold to coral pink. Blooms tinted peach. Sturdy, healthy, free blooming. A coming rose. Now same price as other roses.

White Everbloomers

CALEDONIA—A large, double white, full high-centered and a vigorous healthy variety.

EDEL—A very fragrant pure white big double rose I consider one of the choicest. Buds are faintly shaded with ivory.

K. A. VICTORIA—This is the favorite white rose for the middle west. The buds, half open and glistening white flowers are as fine as any you've seen in a greenhouse. Foliage exceptionally shiny and glossy. Superhardy and always in bloom.

WHITE RADIANCE—Clear purest white—long pointed buds, very free blooming and hardy. If you can only have one white, plant this variety. (See picture on back cover.)

ABOUT ROOTS

Got tired of telling you shrubs are 12 to 18" high or 18 to 24" You don't care about that. Good roots and branches are what you care about. You don't care a rap for a big, spindly shrub with poor roots. So here's how I'm grading my plants.

SELECT PLANTS. Big, healthy roots with lots of branches like I've always furnished.

EXTRA SELECT. Cream of the crop with extra big roots from good growing condition and lots of branches.

THIRD GRADE. Thrown away. Not fit to mail. (DON'T BUY this grade somewhere else. Not fit.)

CHINESE ELM

GENUINE

SIBERIAN STRAIN!!!

Every bit of my seed for these Chinese Elm originally came from Siberia where only the HARDEST of trees can survive. (Stand temperatures of 30° below.) Don't be fooled with common Chinese ELM. Plant the GENUINE HARDY SIBERIAN CHINESE ELM you get from FIELD'S.

These Trees Are DROUGHT RESISTANT!

Drive where you like—the one tree that will grow and grow is the Chinese Elm. Drought doesn't hurt them. Poor soil doesn't hurt them and extreme temperatures only seem to make them thrive.

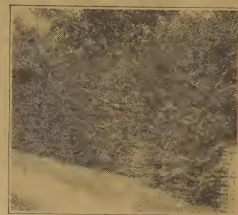

This is the FAST GROWING Strain

This is the strain of Chinese Elm that grows from 8 to 10 FEET PER YEAR. Plant this year and next year you have a windbreak or shade tree 1/2 grown. What's more you'll have the shade or windbreak the rest of your life. Chinese Elms are LONG LIVED—some trees still exist over 200 years old.

GIANT ROOTED Trees CAREFULLY GROWN, DUG & PACKED

I'm proud of my Chinese Elm and take care of them. The trees you get from me will be carefully grown, carefully dug with a large root system and carefully packed against breakage. You'll be pleased 100%. Last year over 2,000 people voluntarily wrote to thank me for the fine Chinese Elms I sent them.

Did You Know CHINESE ELM MAKE QUICK-TIGHT HEDGES?

Yes, Chinese Elm are used for hedges as much as for shade. They make the PRETTIEST AND TIGHTEST hedge you've ever seen. And they're QUICK, too. One year is enough for tall or low hedge.

Plant about 1 ft. apart in staggered row and prune back severely. They'll branch nicely clear to the ground.

SAVE AGENT'S COMMISSION BUY HYBRID CORN DIRECT!

26 YEARS AGO

Yes, that's me—taken over 26 years ago. I was just starting to experiment with Hybrid corn, then, clear back in 1912.

Since then, I guess I've sold more hybrid corn than anyone—sold it because it gave results. And these years of performance mean something to you.

You probably have had a lot of different people try to sell you a lot of different kinds of hybrids. And you didn't know which to buy. The answer to that is "Buy from Someone Who Will Be Around When Your Corn Ripens." They're going to give you good hybrid.

Buy with Confidence

I've been in business over 50 years and I expect to be here a long time yet. If I didn't give you the best you could buy, I wouldn't be in business long. Think that over. It's the answer to a lot of your questions.

EXTRA PROFITS FROM HYBRIDS

As high as \$1500 reported

My Mule-Hybrid corn yields from 10 to 30 bushels MORE PER A. than open pollinated corn. That's why extra profits from Mule-Hybrid as high as \$1500 have been reported. That's extra corn over the usual yield.

Think of it. No more acreage. No more expense. No more work—except picking the extra corn. Even if you got only 10 extra bushels per acre, that's \$80 extra bushels on an 80 and at 50c per bu., that's \$400 EXTRA PROFIT.

FARMER STYLE CORN

- LARGE EARS—NOT FLINTY
- HIGH FEEDING VALUE

Lots of farmers have told me they find fault with hybrid because it's too hard. That's because they have the wrong hybrid.

My MULE-HYBRIDS are not FLINTY HYBRIDS. They are big, rugged, farmer-style hybrids, big as Reid's or bigger. They are bred for a high yielding feeding corn high in feed value. Mule-Hybrid is high in oil and protein to make more milk and beef at less cost.

If you want the best in feeding corn and want the Extra yields of Hybrid corn, plant my Famous MULE-HYBRID.

READ WHAT YOUR NEIGHBORS SAY ABOUT MY MULE-HYBRID

Mule-Hybrid Makes 100.3 bu. Per Acre

"Your Mule-Hybrid made 100.3 bu. per acre. My Reid's Yellow Dent made 71.8 bu. per acre." E. E. Rademacher, Nokomis, Illinois.

Swears by Mule-Hybrid

Dear Henry Field: I planted Field's No. 125 the first of May, husked in September, perfectly dry. Made 75 bu. per acre. All my neighbors had flinty hybrid, but mine was just like regular corn—all large ears.

My son planted your hybrid corn alongside open-pollinated on upland. Your hybrid made 60 bu. per A. where the other made only 40. The open-pollinated burned during the hot weather, but the Hybrid stayed green to the bottom.

For this reason, I have bought my corn from you for next year. My neighbors who bought from an agent, all say, "No more hybrid for me" and I say "only hybrid" when adapted seed is planted.

I can't express in words how proud I was of this corn of yours this year." Respectfully, John Menzies, Rockport, Mo.

Double Yield from Mule-Hybrid

"I got a bushel of your Mule-Hybrid, and what a difference! It grew faster, ears developed sooner and it milled so clean and easy. Every stalk had an ear or two. Made 60 bu. to the acre despite the dry weather—ordinary corn made only 18. Everyone took the number of it." Joe Malick, Columbus, Neb.

15 to 20 bu. More Than Other Hybrids

"I bought 6 bu. of hybrid—all from different seed co. Your corn produced from 15 to 20 bu. more per A. than the other hybrids. I'm going to plant your corn next year." Blumer Tschinen, Plattsmouth, Neb.

Mule-Hybrid Best of 4

"Out of 4 hybrid corns, I tested this year, your Mule-Hybrid outyielded the others, stood up better, and was the kind of corn farmers want to raise—not flinty or hard. Going to plant all Henry Field's Mule-Hybrid next year." E. F. Windhorst, Tarkio, Mo.

20 Bushel More Per Acre

"I bought 3 bu. of your Hybrid corn last spring and the rest was ordinary yellow dent. Your Hybrid made just 20 bu. per acre MORE than the yellow dent, and stood up better.

"My father got same amount of your hybrid and he likes it just as good. Thanks for the roses." Vernon Anderson, Fontanelle, Ia.

YOU CAN'T AFFORD NOT TO PLANT HYBRID

Add 25c per Bushel and I'LL PAY THE FREIGHT

Some folks think freight charges on corn are high. Isn't so. For 25c per bushel on any order of 2 bushels or more of my MULE-HYBRID CORN, I'LL PAY THE FREIGHT TO YOUR TOWN!

For Only \$1.00

Extra per bu. I'll GUARANTEE YOUR STAND OF CORN AND PAY THE FREIGHT. This means that my Freight Paid, Standard-Guaranteed Hybrid corn is yours only \$5.00 per bu. Don't pay more. Buy at Field's.

I planted Henry's Hybrid Corn And got so much more yield I bought a car and tractor, too, And give my thanks to FIELD.

Mule-Hybrid Is Cheap at \$20 bu.

"... lots of them (agents) are selling hybrid corn. I say when you get it, buy from Henry Field's. It's sure to be the right kind. It would be cheap at \$20.00 a bushel." W. P. Pott, Edgerton, Mo.

2 Ears on Every Stalk

"Your Mule-Hybrid seed corn made a hit here. I believe I had the best corn in the county—ears 12" to 14" long and 2 ears on most every stalk. I had to read your Seed Sense to farmers to prove to them I couldn't let them have seed from my crop. I will close, shouting for the famous Yellow Mule-Hybrid to keep going." W. P. Weathers, Rt. 1, Boicourt, Kans.

Mule-Hybrid Leads in Test Plots

"My husband and neighbors were arguing which was best Hybrid. So they went to County Agent to find out. Two plots have been made. Henry Field's Mule-Hybrid made the best yield." Mrs. Paul Townsend, Rt. 3, Bedford, Iowa.

Likes Mule-Hybrid

"Henry Field's Mule-Hybrid made 40 bu. to the A. last year on very poor soil, in spite of bad weather. Ears were large, no nubbins, and no stalk was without at least one ear, often two. The quality was good and it was the easiest corn I ever picked. I am for Henry's Mule-Hybrid." Alfred Softleboeren, Clarinda, Iowa.

A TRUE STORY ABOUT HENRY'S MULE-HYBRID CORN.

ALRIGHT! I'LL TRY TWO BUSHELS OF HENRY'S HYBRID. IF IT'S HALF AS GOOD AS YOU SAY, IT'S PLENTY GOOD

HENRY'S MULE-HYBRID SURE STANDS THIS HEAT. MY OTHER CORN IS HURT BAD.

NO. 129 HEAVY YIELDING MULE-HYBRID FOR SOUTHERN IA. AND SIMILAR FARMS

—For South half Iowa, Central and South Illinois, Southern Nebraska, Eastern Kansas and Missouri—

MULE-HYBRID NO. 129

Improvement Over 125
My most famous hybrid—the HEAVY and SURE YIELDER. The 2-ear hybrid. Made 86 bu. per acre in our planting against 30 bu. for open pollinated. Outstanding in checks in other states—IOWA 80 bu.; Missouri 112 bu.; Illinois 123 bu. per acre. Very drought-resistant. A tall strong grower. Widely adapted to almost all soils, does best on average soil.

MULE-HYBRID NO. 129L

Takes Place of 123
Another 2-ear hybrid. Suckers some. A famous yielder on low, sweet soils, likes medium-light soils too. Ordinarily outyields ordinary corn 20 to 30 bu. per acre. Bred for drought resistance. About 120 days.

MULE-HYBRID NO. 129R

This is the cold-resistant hybrid. Stands up extra-well and outyields everything it has been up against here except 129. Every stalk has a big ear on it. I consider it better than Iowa 13 in every way. For rich heavy soil.
About 120 days to full maturity.

NO. 116—Heavy Yielding MULE-HYBRID FOR CENTRAL FARMS

—For Central Iowa, up to two top rows of Counties. Northern Nebraska and Illinois, South Eastern South Dakota—

MULE-HYBRID NO. 116

Has consistently out-yielded Krug's and Reid's here by 15 to 25 bushels per acre. Drought resistant. Regular "Ramrod" corn—never lodges or falls over. Big ear on every stalk. For average soil.

MULE-HYBRID NO. 116L

You can plant this early as it is cold-resistant. A very heavy yielder—yields of 110 bu. per acre not unusual. Rich in oil, protein makes good feeding corn. Likes medium-light soil. Drought resistant and very disease free, too. Matures 110 days.

MULE-HYBRID NO. 116R

Heavy yielder. Very similar to 116 but likes rich soil. Matures 110 days. In checked tests has given from 21 to 37 bushels more per acre than ordinary corn.

HIGH YIELDING MULE-HYBRID FOR THE NORTH

Henry Field's MULE-HYBRID NO. 100

The sure-fire, early-maturing hybrid for the north. You can always depend on it. Yields ordinarily 10 bu. more per acre than ordinary corn. Stands up well. Rich, yellow ears 8 to 10 inches long.
ADAPTED.—North 2 tiers of counties IOWA, southern row of counties MINNESOTA, southeastern SOUTH DAKOTA, southern WISC. 100 days.

Henry Field's MULE-HYBRID NO. 90

This is the high-yielding "salt and pepper" corn—yellow and white cross. Outyields even Minnesota 13 by 6 to 10 bu. per acre. Matures in 90 to 95 days, with good ear on every plant.
ADAPTED.—Central MINNESOTA, WISC. and S. DAKOTA. 90 to 95 days.

I SELL

CERTIFIED STATE HYBRIDS, TOO, IF YOU WANT THEM

I recommend my Mule-Hybrid as superior to these hybrids. However, I have certified State Hybrids in case you want them.

IOWA 930—(State Certified Seed). Classified as 110 day corn. For central Iowa and similar climate. Not flinty. Good feeding corn. Grows uniform and has strong stalk and root system. Yields in state tests from 20% to 40% over open pollinated corn.

Edge Drop \$5.25 per bu. Hill Drop \$4.25 per bu.

IOWA 13—(State Certified Seed). The drought-resistant hybrid for southern Iowa. Has made extremely heavy yields wherever used. One test was 25% better than other hybrids and 49% better than open pollinated corn.

9 REASONS Mule-Hybrid Corn IS BETTER

BIGGER YIELDS

10 to 20 bu. per A. more
Mule-Hybrid consistently makes records of from 10 to 20 bu. per A. MORE corn than ordinary corn. That means real money to you.

DROUGHT RESISTANT

The Giant root system of Mule-Hybrid goes deep down for moisture. Heat and drought has not stopped its phenomenal performance.

STIFF STALKS

Mule Hybrids have stiff stalks. Prevents loss from high winds, keeps stalks standing straight and is much easier to pick.

UNIFORM CORN

Mule Hybrid is uniform corn with ears placed uniformly low. Easier to pick—often saves as much as 1c per bu. picking costs.

HIGH FEEDING VALUE

Mule Hybrid is high in oil and protein and low in starch. Feeds pork and beef cheaper and easier. Bars large, rugged Reid type—not flinty.

DISEASE RESISTING

Mule Hybrid is bred against root rot and is practically free of disease. Does that mean anything to you?

HEAVY GREEN FOLIAGE

Mule-Hybrid has heavy green leaves clear to the ground. This makes green long staying much better ensilage than ordinary corn.

92% GERMINATION GUARANTEED

All Mule-Hybrid is carefully dried down to 13% moisture, shelled and graded, and guaranteed to germinate 92% or better.

ALL MULE-HYBRID IS TREATED WITH CORN DUST TO PREVENT DISEASE

CORN DUST

Prevents disease and helps to increase your yield about 4%. Also protects your seed from squirrels, rodents, etc. I send treats 50¢ bushel of 1 lb. can \$1.00, postpaid.

OTHER CORN

Yes, I have open-pollinated corn too. It's as good as ever and priced on enclosed price list. I recommend it as follows:

NORTHERN IOWA, SOUTHERN MINN. and SOUTH DAKOTA—Plant Minnesota 13 (yellow), Early Pride Of The North, (yellow), Early Silver King (white), Golden Glow (yellow).

CENTRAL IOWA, NEBRASKA and NORTH ILLINOIS—Plant Fister's Krug (yellow), Reid's Yellow Dent, Golden King.

INOCULATE ALFALFAS, CLOVERS, SOYBEANS FOR BIGGER YIELDS

ALFALFA PLANTS

INOCULATION MEANS BIGGER YIELDS

The picture above shows the difference between inoculating and not inoculating. It may mean the difference between a stand and no stand. You spend \$25 for Alfalfa, 9c per A. is cheap insurance and that's all Nitragin costs.

BUILDS UP YOUR SOIL TOO

Nitragin helps the plant in taking nitrogen from the air and putting it in the soil. This means bigger crops for years to come. It's the cheapest way to fertilize.

USE GENUINE NITRAGIN

I've sold inoculation for years. Nitragin is always reliable. Every can is dated so you're sure you get fresh bacteria and the bacteria count is on EVERY CAN. Full directions on each can.

BEST EGG GRADE

My Finest Chicks can make 6 times the profit of other grades. More eggs from the same feed means PROFITS. This profit repays you many times over for the slight extra cost of this grade.

In White Leghorns, Reds, Hampshire and Barred Rocks we include R. O. P. males in our matings, from hens laying 200 to over 300 eggs in one year. In White Rocks, White Wyandottes and White Minorcas we include R. O. P. males from hens laying 200 to over 260 eggs in one year. Thousands of these pedigreed males are used and the hens they are from averaged 24 chicks, or better, per dozen eggs and were from pens headed with males from dams laying 225 eggs, or better, in one year. Our producer has America's Largest R. O. P. Sire Breeding Program. Your assurance of the BEST for the money. Breeding certificate furnished with each shipment.

SPECIAL LAYING GRADE

This grade is between the standard and BEST EGG Grade. I recommend this grade or BEST EGG for most profits.

You get more eggs on the same feed with this grade. These eggs are profit and pay you well for raising better chickens.

STANDARD GRADE

Strong, healthy, purebred chicks. Superior to the ordinary Standard or "A" grade chicks.

Flocks mated with Special Laying and Best Egg grade cockerels.

GOOD CHICKS ARE GOOD SENSE

Good breeding counts in cattle,
Good breeding counts in corn and
good breeding counts in chickens.
My carefully bred chickens come
from flocks with up to 300-egg
blood, making heavy egg pro-
ducers and a PROFIT FOR YOU.
It takes just as much feed to
raise a scrub chick as a profit-
making chick and if you start
with a scrub you end with a scrub.
Buy the best and save money.

ALL MY CHICKS BLOOD-TESTED

My chicks all come from care-
fully inspected flocks with super-
vised matings—all blood tested by
the Stained Antigen method to be
free of Bacillary White Diarrhea.
Don't take a chance.

WORLD'S LARGEST SELLING BRAND OF BABY CHICKS

Henry Field sells the LARGEST SELL-
ING BRAND OF CHICKS IN THE
WORLD. To be the largest means just one
thing—you must get BETTER CHICKS AT
LOWER PRICES.
And that's just what you and thousands
of other people get from Henry Field each
year. Henry Field's Bred-To-Lay chicks

AMERICA'S LARGEST R. O. P. SIRE PROGRAM BACK OF FIELD'S CHICKS

Our best flocks are headed by officially
pedigreed males from hens laying 200 to
357 eggs in one year and averaging 24
ounces, or better, to the dozen. Our pro-
ducers have America's largest R.O.P. Sire
breeding program, which assures you of
better egg production.

UP TO 300 EGG-BLOOD MEANS FULL EGG BUCKETS FOR YOU

The 200 to 357 egg-blood (official R.O.P.)
introduced into my flocks is the reason my
customers report as high as 200 eggs aver-
age from 220 pullets.

This amazing amount of 300 egg-blood in
my matings means more eggs and MORE
profit for you.

Rhode Island X Plymouth Rock
Male Hen

RED-ROCK HYBRID

Crossing the Rhode Island Red cockerel with the Barred Rock hen gives a hybrid that lays better than many Reds and is a better broiler than the Plymouth Rock.

This makes an ideal cross for large profits. Hardy, quick growing, heavy layers, excellent broilers—you're bound to make more money than with a straight pure bred.

Supply limited—order early.

White Leghorn X White Rock
Male Hen

LEG-ROCK HYBRID

—For Meat and Eggs—

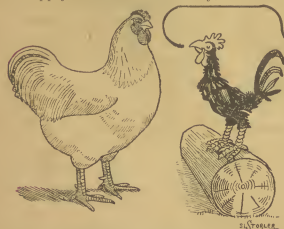

All the egg production of the Leghorn added to the large size of the Rock makes this cross extremely profitable.

Both males and females make excellent broilers and pullets are like Leghorns in laying. Eggs large and light brown.

Pullet resembles Leghorn. Cockerel resembles Rock and sells as heavy breed. Hybrids combine the good points of both breeds and make you more money.

**WELL, SMARTY!
Being a Hybrid,**

You Grew Faster
Grew Bigger
Grew Better
BUT THEY'LL EAT YOU SOONER

Field's HYBRID CHICKS are growing fast in POPULARITY. They lay heavy (much 300 Egg-Blood used), mature more rapidly, are not susceptible to disease and are the BIG-PROFIT making chicks. Do not use for reproduction.

WHITE LEGHORNS

LEGHORNS ARE PROFITABLE

The leghorn is perhaps the most profitable breed because it proves the most profitable from a commercial egg standpoint. They consume less feed, produce more eggs—pure white in color—bringing the highest market price.

BUY Leghorns With Care

Some folks think ALL leghorns are heavy egg-layers. That's not true. I think 100 eggs per year is nearer the average for ordinary leghorns.

That's why it's important you get Henry Field Bred-To-Lay Leghorns with up to 300-egg blood. Even if they cost you 5¢ more per chick (which they don't) they pay that back many times over in EXTRA EGGS.

Secret of Success with Leghorns

Don't worry about the cockerels. Get them on an early market at 8 or 10 weeks. They grow fast and should weigh 2 lbs. and broiler prices are usually high then.

START EARLY. The cockerels get on the market sooner and the hens start laying in October, November and December when you can "cash in on profits."

MORE PROFIT
FROM
BETTER BIRDS

Henry Field's
BETTER LEGHORNS
MAKE YOU MORE
MONEY

A 200-egg hen makes six times the profit of an average hen. So, Henry Field Leghorns, with 200 to 300-egg blood bred in through many generations — are bound to be better money-makers and larger egg-producers, aren't they?

Don't take a chance with ordinary chicks, if you want high egg-production and giant, true-to-type Leghorn birds. Buy Henry Field's proven strain.

P. S. — The way to make even MORE PROFITS is to use Henry Field's BEST EGG grade or SPECIAL LAYING grade. They're cheaper in the long run.
